EXPERIENCE

Mathematics Teaching Assistance, Hyderabad, India

Aug 2020-2021

- Taught the students extremely difficult mathematical concepts and how to find solutions. Highly skilled in algebra and calculus.

Worked in SRH Solutions, Hyderabad, India

May 2022 – Aug 2022

- Created and improved computer software, and hardware. Data Analysis. Trouble Shooting. Helped with web service. Clerical Support. Computer Diagnosis. Strong working experience in Windows environment.

PROJECT

ILTC Website – JavaScript, React, Node, HTML & CSS.

- Built a robust e-commerce platform dedicated to selling 3D printable models, enabling 3D print enthusiasts to purchase desired 3D models.
- serving over one million 3D printing enthusiasts worldwide, providing a vast collection of high-quality 3D printable models. Enhanced user interaction and satisfaction by a responsive and intuitive user interface using HTML, CSS, and JavaScript. Achieved a reduction in load times by optimizing the backend with Node.js, and secure payment gateways and streamlining the checkout process with React.

Omnifood Website – HTML, CSS, JavaScript.

- Built a website Omnifood a meal subscription website, showcasing proficiency in front-end web development.
- Serving individuals who often lack time to cook for themselves, this website enables users to effortlessly browse, and order fresh, chef-prepared meals delivered to their doorstep. The aim is to simplify meal planning and promote healthier eating habits.
